

Here's what's new at Café Americana

We are now serving famous Nathan's all-beef wieners daily. You can dress it up your way or try it as a cheese coney or as an authentic Chicago dog.

We have expanded our variety of cheeses for your favorite custom sandwich or burger. Now choose from American, Swiss, shredded cheddar, provolone, or pepper jack.

We have also expanded our bread choices to now include white, wheat, marble rye, croissant, bagel, Italian foccacia, or San Francisco style sourdough.

In addition, we are continuing to broaden our choices of sandwich side items. Choose the customary bag of chips or apple or try a pudding cup or applesauce cup instead.

As part of a nationwide initiative, we are continuing to expand our variety of healthier food, beverage and snack options. We have recently added to our daily menu such items as turkey bacon, turkey sausage, spicy black bean burgers, fat-free Ranch or fat-free Catalina salad dressings, and fat-free French vanilla cappuccino. We are also offering a growing number of healthier snack items in our snack vending machine. These products are registered in the "Fit Pick" snack program and are identified by a green dot.

On our salad bar, you gotta try that awesome Amish potato salad or Cheryl's corn pasta salad!
